

CSC 110 Assignment 6

- 1 Compiles without errors
- 1 runs without errors
- 1 Outputs exactly as specified
- 1 indenting & spacing
- 1 Documentation in ClientUpdate.java file
- 1 Correct number of accounts created
- 1 all accounts updated
- 1 ClientUpdate.java uses static methods to create a reasonable structure for the code
- 1 Instance methods of BackAccount.java called where suitable
- 1 method toString() of BankAccount used, implicitly or explicitly, to output all attributes of each account

Its true: No marks are allocated for the documentation of the BankAccount.java file, even though the assignment specifically asks for that to be done!
The activity was designed to get everyone to have a really close look at the provided file. L.
